Cal OES
GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

911 Outage, Inyo and Mono Counties

- On 01/06/16 at 1044 hours the California State Warning Center (CSWC) received a report indicating that there was a 911 outage affecting Inyo and Mono County Public Safety answering Points (PSAPs).
- The CSWC made contact with Mono County Warning Point (WP) via CALWAS, OASIS, and landline, but was unable to make positive contact with Inyo County WP. However, Cal OES Tcomm was able to reach Inyo County WP on OASIS.
- At 1246 hours, the CSWC was advised that reroutes for the affected PSAPs were put in place, but without Automatic Number Identification / Automatic Location Information (ANI / ALI).
- As of 1803 hours, per the Cal OES 911 Branch:
 - CHP Bishop, Bishop PD, Mono County Sheriff, and Inyo County Sheriff are all receiving their 911 traffic normally at this time.
 - Randsburg, CA isolation has been resolved and service has been restored.
 - The failure is isolated to a fault in hardware that supports the fiber transport ring that serves these PSAPs. While service to the PSAPs is restored, full redundancy has not been restored. This is scheduled to take place at 0200 hours on 01/07/16. This should completely clear the outage once complete.

Proclamations

- Given the prolonged and continuing duration of the Aliso Canyon gas leak and at the request of residents and local officials, Governor Edmund G. Brown Jr. on 01/06/16, issued a proclamation that declares the situation an emergency and details the administration's ongoing efforts to help stop the leak. The order also directs further action to protect public health and safety, ensure accountability and strengthen oversight of gas storage facilities.

SITUATION SUMMARY

Cal OES Southern Region Storm Preparations, 2016-01-05 Winter Storm

- The Southern Region Emergency Operations Center (SREOC) [is activated to Level II in support of 2016-01-05 Winter Storm.](#)
- [The California State Emergency Operations Center \(SOC\) is activated to Level I to support operations and requests for the SREOC.](#)
- A Regional Event has been created in Cal EOC: 2016-01-05 Winter Storm

Activations

- [San Bernardino County EOC: Level I](#)
- [San Diego County EOC: Level I](#)
 - [City of San Diego Fire/PD opened their DOC.](#)
- Los Angeles County EOC: Level I until 1900 hours
 - City of Los Angeles EOC: Level I
- Orange County EOC: Level II. [Will return to Level I activation at 2200 hours.](#)
- Ventura County EOC: Level I [Will deactivate at 2000 hours](#)
- Riverside County EOC: Level II
 - [Plans to be activated 24/7, two 12 hour shifts through Friday, 01/08/2016.](#)

Proclamations

- None at this time.

State Assistance Requests

- None at this time.

Southern Region Deployment

- (1) Cal OES Southern Region ESC has deployed to the Riverside County EOC as an Agency Representative
- (1) Cal OES Southern Region ESC has deployed to the Ventura County EOC as an Agency Representative
- (1) Cal OES Southern Region Senior ESC has deployed to the Orange County EOC as an Agency Representative
- (1) Cal OES Southern Region ESC has deployed to the Los Angeles County EOC as an Agency Representative
- ((1) Cal OES Southern Region Senior ESC has deployed to the San Diego County EOC as an Agency Representative
- [\(1\) Cal OES Southern Regional Administrator has deployed to the San Bernardino County EOC as an Agency Representative](#)

SITUATION SUMMARY

Critical Concerns

San Diego County

- The County is monitoring 4 burn scars: Highway Fire (Deer Springs area, off Old Hwy 395 and I-15), Poinsettia Fire (Carlsbad, Aviara Pkwy north of La Costa Resort), Cocos Fire (near CSU San Marcos to western Escondido) and Bernardo Fire (northeast City of San Diego).
- Mass notification areas and scripts have been pre-populated.
- The roof of the San Diego County Public Health Facility at 3851 Rosecrans St. San Diego, San Diego County has collapsed due to rain resulting in significant damage to the building. Health and Human Services Agency (HHSA) DOC was in the building, they have relocated to another facility. Note: This is not the building where the County Health and EMS Medical Operations Center/MOC is located
- Flood damage at some level to Alvarado Hospital & County Psych Hospital (no patient relocation needed).
- Damage to parking structure of Marriott in Old Town.
- Flooding at San Diego County Office of Education.

Access and Functional Needs

- There are no unmet needs or requests for assistance reported at this time.

Emergency Management

Evacuations

Ventura County

- Voluntary evacuations for Camarillo Springs starting at 0900 on 01/06/16 with 160+ homes notified. The evacuation has been extended until 2000 hours.
- VC Alert was sent advising residents of potential debris flow on the freeways and roadways (Solimar burn area).

Orange County

- Voluntary evacuations for Silverado Canyon was issued at 1000 hours on 01/06/16. Voluntary evacuation has potential to be upgraded to mandatory evacuations as the storm progresses.

Los Angeles

- Mandatory evacuations are in place for 10 units at the Crestview Valley Mobile Home Park at 23500 The Old Road, Newhall.

Health & Medical

- There are no unmet needs or requests for assistance reported at this time.

SITUATION SUMMARY

Shelters

Ventura County

- The Red Cross reopened the shelter at Leisure Village, 1200 Leisure Drive, Camarillo. The shelter was opened at 0900 hours on 01/06/16. Shelter population: 2.

Orange County

- An evacuation shelter is located at the Silverado Community Center, 27641 Silverado Canyon Rd, Silverado.

Los Angeles

- An evacuation shelter has been established at the Santa Clarita Newhall Community Center, 22421 Market St, Santa Clarita, for residents evacuated from the Crestview Valley Mobile Home Park. AFN accommodations have been made for occupants of two of the trailers.

San Diego County

- One shelter has opened in San Diego County due to flooding. The shelter is located at the College Avenue Baptist Church, 4747 College Avenue, San Diego. Midnight Shelter Count: 4. The facility was opened to accommodate families who live in an apartment complex that sustained flood damage.

Schools

- St Lucy's Priory High School in Glendora, Los Angeles County closed on 01/06/16 due to potential flooding.

Road Closures

Ventura County

- Caltrans is reporting that #1 of southbound Highway 101 is closed for approximately ½ mile near Dulah Road as crews are working in the area. All northbound lanes of Highway 101 are open at this time; however, some mud and debris flows onto the lanes have been reported.

Los Angeles County

- N/B and S/B I-5 is closed between Sheldon and Lankershim due to flooding of lanes 1, 2, 3, and 4 are closed. Only the carpool lane is open.

SITUATION SUMMARY

Mission Tasking

- **2016-Cal OES-20766, 01/06/16 at 1525 hours:** California Military Department will extend warming center operations to include daylight hours of 0600-1800 hours at 3 armory locations in Los Angeles County due to recent severe weather and flooding. Existing shelters will continue to provide nighttime operations from 1800-0600 hours.

Utilities

- Don Boland, CUEA, advises CUEA is dispatching Mutual Aid from SoCal Edison (SCE) to Bear Valley Electric. SCE will be on the road at 0600 hours on 01/07/16.

Recovery

- None at this time

Initial Damage Estimates and Preliminary Damage Information

- Pending – OA'S are gathering damage information form their cities.

SITUATION SUMMARY

Weather of Concern

Northern California

- An upper level trough is moving inland spreading rains showers through the Valley and snow showers in the mountains.
- The main precipitation band went through this morning, bringing the heaviest period of rain and mountain snow.
- Rainfall amounts in the Valley have ranged from around a third of an inch to an inch today.
- Snowfall at Kingvale was measured by Caltrans at 6 inches so far. Light amounts of snow were measured by a weather spotter at Sims in Shasta County this afternoon down to 2500 feet. Additional snow accumulation is possible over the next few hours.
- As of 1850 hours on 01/07/16, the Sacramento River at Rio Vista is at monitor stage (Solano County).
- As of 1850 hours on 01/07/15, the Sacramento River at Tisdale Weir is at monitor stage (Sutter County).

Southern California

- The second significant Pacific storm of the season is expected to arrive from northwest to southeast across the area beginning Wednesday morning. With it another round of moderate to heavy rainfall can be expected with one to three inches of rain expected with locally four inches across the southwestern facing slopes.
- The potential exists for a second period of moderate to heavy rain in Los Angeles and Ventura counties Wednesday night into early Thursday morning.
- There is a slight chance of thunderstorms most of the day Wednesday lasting into Wednesday night behind the cold front. Rainfall rates may approach one inch per hour within stronger thunderstorms.
- Moderate to heavy snowfall is expected above 5,000 feet with an additional one to two feet of snow above 6,000 feet with lesser amounts to 5,000 feet. Snow levels may briefly drop as low as 4,000 feet with heavier showers or thunderstorms.
- The combination of heavy snow and strong winds gusting to between 50 and 60 mph will create winter storm conditions in the mountains, with blizzard conditions possible at times.
- Heavier bands of rain may cause flash flood and mud/debris flows especially in recent burn areas including the most recent Solimar burn area in Ventura County.
- Gusty southwest winds across the area with the strongest winds across the mountains and Antelope Valley where 50 to 60 mph gusts are possible.
- As of 1850 hours on 01/07/16, the San Diego River at Fashion Valley is above flood stage (San Diego County).
- As of 1850 hours on 01/07/16, the Santa Margarita River at Ysidora is at monitor stage (San Diego County).

Active Weather Warnings, Watches and Advisories by County:

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Key Points

01/07 – 01/13

Thursday-Friday

- Widespread mountain snow across the central and southern Sierra into Thursday morning. Some snow may linger through Thursday into the early hours of Friday morning over the mountains of southern CA.
- Valley locations will see rain. Areas of heavy rainfall can lead to localized urban flooding and flash flooding / debris flows from recent burn scars in particular over southern CA.
 - Several debris flows have emanated from burn scars in southern CA and more can be expected.
 - No mainstem flooding is expected
 - Minor flooding forecasted on Thursday for the San Diego River at Fashion Valley.
 - Low water crossing flooding and minor parking lot flooding.

Saturday-Sunday

- Another storm system will move through the State of CA on Saturday. It will contain less moisture. While there is uncertainty regarding this storm, snowfall and rainfall amounts look to be considerable less than the Thursday storm.

Monday-Wednesday

- No significant hazards expected

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

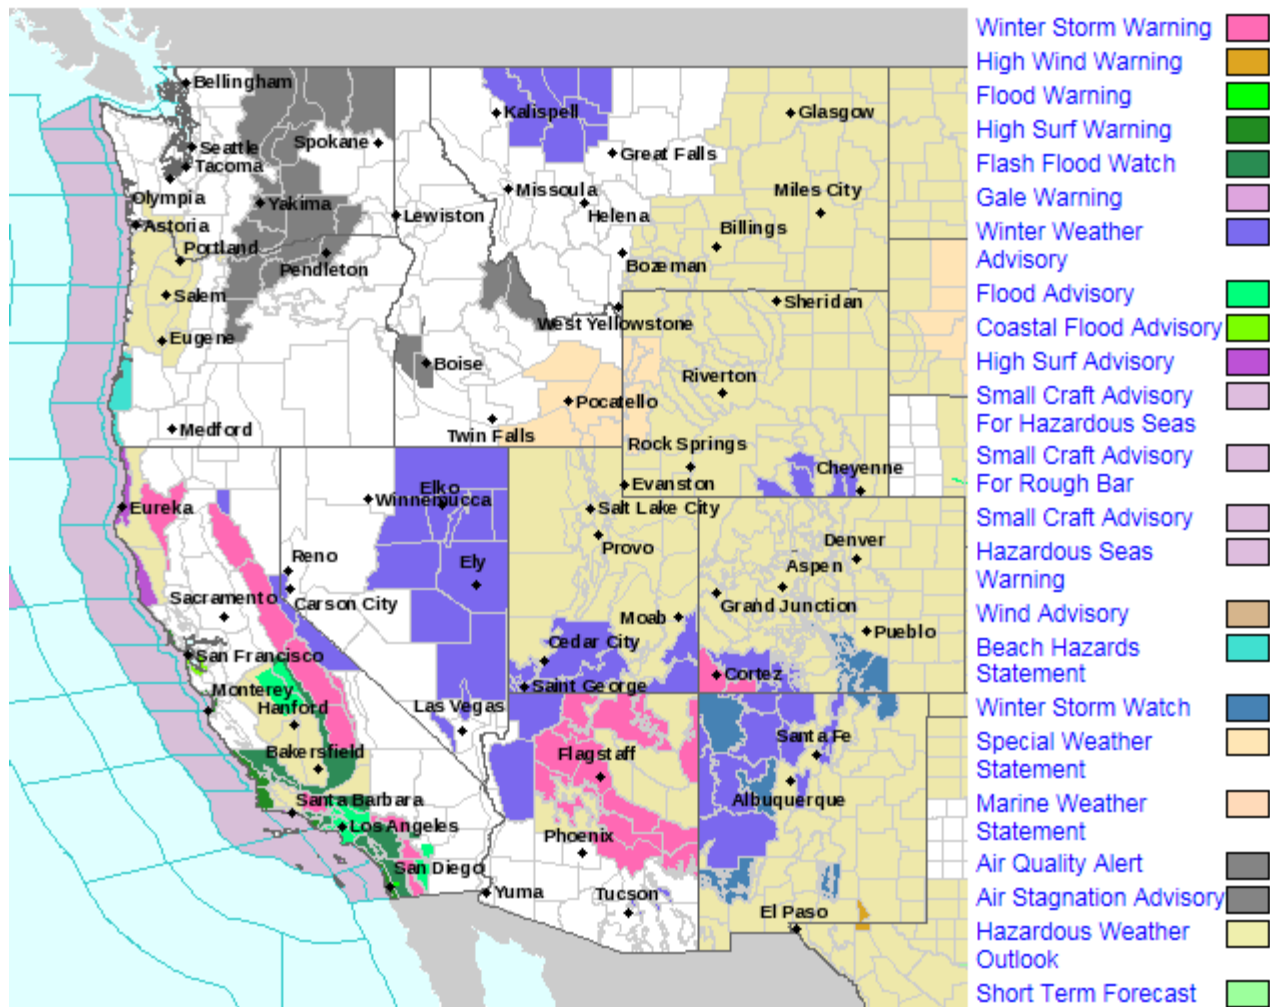

Westerly flow across the Pacific will continue to bring a series of weather systems through Northern California well into next week. Confidence in the details of timing and strength of each system is low after about 3 days from now, but overall confidence is high that we will continue to see an unsettled weather pattern over the region. Precipitation intensity will decrease later today with rain and snow showers lingering tonight and Thursday. Many areas will be mostly dry Friday, but more precipitation is likely Friday night into Saturday. High pressure expected Sunday will bring dry but somewhat cloudy weather for the day. Yet another weather system appears likely to move ashore Monday. No significant dry periods are expected well into next week. Snow levels will be variable through the 7 day period with meaningful accumulations generally around 3000 feet and above today, otherwise generally around 4000-5000 feet and above. Mountain travel will continue to be in winter-weather conditions when the core of the weather systems passes through. There will be moderate to strong, gusty southerly winds today with gusts mostly 30-40 mph, mainly in the Sacramento and Shasta Valleys. Gusts to around 50 mph will be possible in the southern Shasta Valley. Temperatures will be more or less around seasonal normals over the next 7 days.

SOUTHERN CALIFORNIA

A strong Pacific storm will bring heavy rain and high elevation snow to the region through tonight, with scattered showers Thursday morning through Thursday evening. Most foothill and mountain locations will receive 2 to 4 inches of rainfall and most coastal and valley locations will receive between 1 and 2 inches of rainfall through Thursday evening. The snow level will be between 4,000 and 5,000 feet. A weak ridge will bring mostly dry conditions Friday, with only isolated showers across the mountains. A weaker storm will bring a half inch to an inch of rainfall to the foothills and mountains and a quarter inch to a half inch of rainfall to the coastal and valley areas Friday evening through Saturday evening. The snow level will be between 5,000 and 6,000 feet with this storm. Another weak ridge of high pressure will bring mostly dry conditions to the region Sunday, with only isolated showers across the mountains again. A weak storm will bring scattered showers to the area Monday afternoon into Tuesday. Most foothill and mountain locations will receive between a quarter inch and a half inch of rainfall while most coastal and valley locations receive less than a quarter inch of rainfall. Strong south to west winds will surface across the mountain ridges and desert passes through Thursday night and again Friday night through Saturday afternoon. Temperatures will be below normal through early next week. Maximum temperatures will be in the mid 30s to mid 40s across the mountains and 50s to low 60s in the valleys through the end of this week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 63 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 29 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
